

Eight Accidents Injure Motorists In This District

Game Warden is Slightly Hurt When Vehicle Leaves Road

Eight motor vehicle accidents during the past week caused injuries to a number of people in this area, the California Highway Patrol reported.

Tom Borneman, 35, local game warden, had minor injuries when the car he was driving on the Brockway shortcut went off a bank Saturday night at 10:30 o'clock. State Patrolman William Gautsche said the driver apparently momentarily fell asleep at the wheel.

George W. Burton, 19, Sacramento, suffered major injuries and was taken to the Auburn hospital Saturday at 1 p.m. when the car he was driving skidded on a curve eight miles west of Truckee and was wrecked. Patrolman Gautsche made the investigation.

George J. Mirande, 24, San Francisco, was taken to a Reno hospital with critical injuries on Sunday morning at 6 o'clock when his car and one operated by Dr. Max L. Salvater, 39, Sacramento, collided half a mile west of Kings Beach. Mrs. Laura Salvater was also injured and the doctor escaped with minor hurts. Mirande was cited for being on the wrong side of the road and driving without due caution.

Walter E. Crumrine, 52, Modesto, was cited for driving without due caution Friday noon after his car ran off the road and was wrecked six and a half miles west of Truckee. State Patrolman Roy Stallard made the investigation.

F. C. Haine, 32, Oakland, was cited for making a bad pass by Patrolman Gautsche after his car crashed into a vehicle driven by David A. Nelson, 19, North Sacramento soldier, near the Tahoe City wye. No one was injured.

Edward M. Finnelly, 57, Woodland Hills, suffered minor injuries Thursday at 9:30 o'clock when a car driven by Charles M. Burt, 41, Los Angeles, ran off the road six miles west of Truckee. The driver, who also had minor injuries, was cited by Patrolman Stallard for driving without due caution.

Leo Voight, 57, Pierz, Minn., and Elmer A. Grube, 39, Chicago, escaped injuries when a car driven by the former ran into the rear of the Grube car in a control near Rainbow Tavern Monday at noon. Mrs. Minnie Grube was treated by Dr. L. D. Nelson for minor injuries. Patrolman Gautsche made the investigation.

Homewood Resort Advances Closing

HOMWOOD—Don Huff, owner and manager of Homewood Resort, this week announced that he would keep the establishment open until October 15 in response to popular demand. He had planned to close the first of the month.

The Tahoe City Rotary Club, which has been meeting there during the summer, will continue but has changed to an evening schedule with meetings at 7 p.m. instead of noon.

Huff said one of his reasons for remaining open is to confer with interested parties who might desire to install a winter sports area near the resort. Ideal hills and conditions are available at Homewood Resort, Huff declared, and he will assist in developing the area in event someone wishes to install a tow and other equipment.

Deer Hunting Slump Is Seen In District

Deer hunting in this area hit a new low during the past week when a scarcity of both bucks and hunters was noted.

Justice of the Peace R. N. Little reports no new violations have been cited into his court since the opening weekend of the season.

Most hunters believe the deer are still in the higher elevations and will not come down until the weather cools or a storm arrives.

Water Rates At Gateway Will Be Boosted By Dist.

The matter of raising the minimum water rate in the Gateway-Meadow Lake area was given consideration at the meeting of the directors of the Truckee Public Utility District this week.

Manager C. Edmunds pointed out that for the past 10 years this system had been losing money on its operations. He said that over 50 per cent of the initial investment in the system has been made with a view to eventually furnishing fire protection, from which an income was expected to be derived. The fact that this anticipated revenue has not materialized has been the main reason for the loss in the system's operation.

Pending the receipt of such additional revenue, the directors are considering a raise in the minimum charge for service of approximately 25 per cent. Thus, service through a half-inch meter now charged a \$2 per month minimum, would be raised to \$2.50 per month. A 3/4-inch service, now \$2.50, would be raised to \$3; a one-inch service from \$3 to \$3.50; a two-inch, \$5 to \$6; a three-inch, \$10 to \$12.50 and the present charge for over three inch service from \$20 to \$25 per month minimum.

This raise in the minimum rates, Edmunds stated, would bring in approximately 15 per cent more revenue on this system and help materially in cutting down the present loss in operations.

The board laid the matter over until its next meeting on Tuesday, October 10, at 2:30 p.m. at the office of the district, when consumers on this system are invited to attend and participate in the discussion at which time the directors expect to act upon the suggested raise in rates.

District Supplies New School With Electric Power

Flat Rate of Two Cents Wins Contract For TPUD

The governing board of the Tahoe-Truckee Unified School District at the meeting September 19 awarded the contract for supplying electrical energy to the Truckee Public Utility District.

The only bids received were from the district and the Sierra Pacific Power Company.

The former submitted a flat bid of two cents per KWH, regardless of the consumption. The power company's bid was for a fluctuating consumption of electricity, the submitted rate ranging from a high of five cents to a low of two cents per KWH, Walter A. Loynd, school board president, announced.

The only problem now facing the district is the installation of transformers and service lines to get the power to the school plant a mile and a half west of Truckee. Both E. L. Loynd, president of the utility board, and Manager C. Edmunds have given assurance that this can be accomplished.

The local board was anxious to give the school service since it is situated within the district and will be a user of a considerable amount of power.

BEV BROOKS IS BADLY INJURED IN CAR CRASH

Beverly Eugene Brooks, 32, well known north Tahoe and Reno resident, was seriously injured early Sunday morning in a head-on automobile collision near Colfax. Evans, 22, Chelalis, Wash., swerved into the path of the Brooks car, causing the accident, officers said.

Fatally injured were Raymond C. Frohlich, Reno, a passenger with Brooks; Evans and Marvin Morris, Worcester, Mass., a passenger in the Evans car. Bud Roe of Reno suffered serious injuries but was returned to Reno this week.

Brooks is expected to remain in an Auburn hospital for a considerable period of time.

In sponsoring the Cub Scouts, the 20-30 Club has taken over one of the most important jobs in the community. Development of the youth in his early years will have a lasting effect upon his later life and Scouting—both Cub Troops and Boy Scouts—has proven to be a character builder. We believe that every boy associated with the Cub Scouts will gain from his experiences and be better prepared to take part in later youth activities and eventually will be a better citizen for his Scouting.

Formation of a student body council under the direct guidance of Principal Clifford King, and subsequent adoption of a sound student policy, should have a good effect upon the high school this year. We believe that the Tahoe Truckee High School enrollment embraces some of the best young men and young women that it is possible to find anywhere, and we are convinced that under the guidance of a capable faculty and with a chance at self-government, directed by their teachers, the school will take its place among the top ranking of the state. Those who have failed to note a marked improvement in the local schools have not been very observant. We believe this improvement well worthy of highest praise for those who, even in a very short time, have made it so apparent. There is no asset more vital to the welfare of a community than its schools.

ROTARY, 20-30 JOINT SESSION HELD MONDAY

The Truckee Rotary Club honored as their guests the Truckee 20-30 Club Monday night. There were 58 members of the two clubs attending. The speaker of the evening was Paul Claiborne of Auburn. William Curran, Rotary's representative in 20-30, introduced the speaker.

Claiborne, a past district governor of Rotary International, was the founder, first president and the first district governor of 20-30. He gave the history and background of its early days and, using Rotary as a model, he said that in 1922 he and a group of young men in Sacramento conceived the 20-30 idea and organized the first club. It is today an international organization.

Rotary President Jim Sherritt turned the meeting over to 20-30 President Kenneth Hedlund who introduced fourteen 20-30ians from Carson, four from Sparks and Reno and one member from San Antonio, Texas.

Rotary had as their guest Dr. Arthur Boehmer, Lodi, and Steve Korich, Tahoe City. A birthday cake was presented to Charles Osburn. Jack Wolert, Rotary song leader for many years, turned his duties over to Harold Steen. John Richards announced that Shirley Bratton of Grass Valley will be the speaker on October 2.

Rites Held Here For Robertson, Former Official

Friends Discover Body In Cabin Home at Hobart

Funeral services were held here Tuesday afternoon at the Masonic Hall at 2 o'clock for Alexander Robertson, 74, a former Nevada County supervisor from this district, who was found dead in his cabin home at Hobart Mills Sunday.

Constable N. F. Dolley said Robertson apparently died of natural causes some time Thursday.

The rites were conducted under the direction of the Truckee Colonial Mortuary with the Masonic Lodge of Beckwourth in charge. The body was taken to East Lawn in Sacramento for cremation.

Robertson was a native of Sierra Valley and had lived at Hobart Mills for 38 years. From 1929 until 1945 he was supervisor from this district. He had lived alone in his Hobart home since the death of his wife, Mary Louise, on March 28, 1949.

He was almost a daily visitor to Truckee and when time elapsed without word from him, friends investigated and discovered his body.

The only known survivor is a brother, John Robertson of Calistoga. For many years the deceased was a member of Hope Lodge No. 234, F&A Masons, of Beckwourth.

Miesche is arranging for recorded music and says the dances will be held every Friday night at 8 p.m. throughout the fall and winter.

Few are familiar with the old-time steps, Miesche said, but anyone can easily learn and enjoy the programs being planned.

Another traffic record was established here during August when a total of 46,718 automobiles, 3240 commercial vehicles and 641 stages, bearing a total of 134,251 passengers were checked into the state at the local department of agriculture quarantine station.

While the figure was approximately 200 cars less than for July, it was far ahead of August last year.

Yermo with 48,918 cars was the only station ahead of Truckee, the report shows, and for the first time, the local station was within 2500 cars of that southern California point of entry.

Over the state as a whole, 310,936 cars with a total of 952,580 passengers were checked through the 18 stations.

Stateline on Highway 50 reported 17,276 cars, 133 trucks and 58 stages, with a total of 48,732 passengers. Brockway had 3018 cars, no trucks and 66 stages and a total of 8,586 passengers.

CHAS. COLLIER IS KILLED IN L. A. ACCIDENT

John Collier, division of highways employee, left early yesterday morning for Los Angeles upon receipt of word from that city telling of the fatal automobile accident which killed both Mr. and Mrs. Charles Collier, brother and sister-in-law of the local man.

The meager advice did not give details, but it was indicated that Mrs. Collier was killed instantly and her husband died later in the hospital.

The dead man was well known in this area where he often visited. His mother and father, long time Truckee residents, were killed near the Sierra County line in an auto accident June 10, 1946.

Collier's body is being returned to Truckee and services will be held at the Truckee Colonial Mortuary Saturday at 2 p.m. with Father J. Boland officiating. Interment will be in the Truckee cemetery.

Man Killed Here May Have Been Escaped Convict

Prison Officials Are Due To Investigate Identity

Officers today are investigating the possibility that a man killed in a Juniper Creek logging accident at 3 o'clock yesterday afternoon may have been Charley C. Kennedy, who escaped August 11 from a San Quentin prison camp at Bass Lake in Yosemite.

Registered on the Tahoe Lumber Company's payroll as Jack Reed, 40, the victim of the accident closely resembled the description of Kennedy. Naturally sandy red hair and eyebrows had been dyed black, according to Deputy Sheriff Fosten Wilson, who is heading the local investigation.

Kennedy, according to San Quentin officials, was convicted of rape in San Diego in 1947. He had been working with a forest service prison camp in Yosemite until August 11 when he escaped and has not since been heard from by the authorities.

The man known locally as Reed had been employed in the logging camp for three or four days. He was assisting in loading a heavy log on a truck when a cable on a tractor snapped permitting the log to whirl around and strike him in the abdomen.

Rushed to Truckee, the victim was examined by Dr. L. D. Nelson, who ordered him taken to a hospital. A short time after the Truckee ambulance left here, the injured man expired and the body was returned to the Truckee Colonial Mortuary to await completion of the investigation.

San Quentin officials were expected here this afternoon to view the body to determine whether or not Reed and Kennedy were the same man.

North Tahoe

We trust you will read this column this week with a bit of tolerance as your regular correspondent, Thelma Burroughs, is taking a much-needed and well-deserved short vacation. Having asked us on such short notice to take over, we neglected to find out just where she was going. But she can tell you about that later. Having been out of circulation somewhat during the past few months, we were amazed at all the activity and the number of residences that are still occupied in the north Tahoe area. We especially noticed the many new buildings and improvements in Tahoe Vista and the rapidity with which Ballard's Boat Harbor is being rushed to completion. Even on Sunday the fellows were pushing the dirt around.

Dick and Louella Boyce, having sold their big house overlooking the lake during the summer, are now residing on the rock pile in a cozy little house which we believe was originally intended as a garage. Just goes to show what a bit of ingenuity, hard work and aggravating backaches can do to make a home.

We have been wondering too what George Reiners is going to do with all those skinned poles he has out in front of his house. Surely it couldn't be he is going into competition with the telephone or power companies. O, well, Leila has a beautiful bed of petunias to offset George's pile of poles.

Speaking of petunias, brings to mind the fact that when we came to the lake four years ago, people didn't seem to be very garden conscious but now there is scarcely a home which isn't beautified in some manner.

Kings Beach is still a busy little community and not nearly so many shutters are in evidence at this time of the year as has been the case in the past. Mr. and Mrs. Henry Gould were busy last night moving their cleaning equipment across the street into what is known as the Caroline Eddy building. We understand Henry is going to put in some new equipment.

Bev Brooks, well known North Tahoeite, was seriously injured in a car smashup on Highway 40 last weekend. He is now in the Highland Hospital in Auburn. His many friends trust he will soon recover from his injuries.

Another bad accident occurred early Sunday morning on the Chaska West Stables curve just west of Kings Beach. Several people were injured but none fatally. From what we hear, the accident was caused by driving at a terrific speed.

Mary Abbott hasn't outgrown all the little girl stage yet, having celebrated her birthday last Thursday with a party.

So sorry to have missed the Wee Kirk o' the Pines dinner last week but we were out of town, visiting our children. Incidentally, we have a new member in our family, a grandson born on September 20 in the Mather Field hospital to our daughter Joanne and her husband, Corporal Mike Brown.

The school children will have lots to talk about for the next few days, having been given various "shots" and vaccinated yesterday by Dr. L. D. Nelson of Truckee. A new style of wearing sweaters and jackets prevails, wearing one arm in and one out of the sleeves.

Condolences go to Mrs. J. P. Hill of Kings Beach, whose brother, Mr. Orrell, died rather suddenly in Chico last week. He had been a resident of Chico for many years.

The tri-city golf match on the Tahoe City course between the Rotary clubs of Tahoe City and Brockway and the Lions Club of Truckee last Sunday was a lot of fun for the participants. The counting of the scores showed a victory for the Lions Club.

The poor deer hunters, they

**SWANEE'S
TAHOE LETTER**

Tahoe City, September 25th
Dear Tahoeites—

A few more successful hunters I have heard about since last week are Floyd Fuson, who shot his forked horn in the wood camp not far from Truckee; Jake Stuart, who got a 160 pound four pointer near Bear Creek; Walter Mandeville and Frank Pope, who shot a 100 pound bear in the Rubicon district.

A hunting party consisting of Mr. and Mrs. Imon Mitchell and son, Imon Dale of Tahoe Park; Mr. and Mrs. William Hommerbocker and children Dorcas and Diane of Marysville, and Hal Sharrow of San Anselmo, motored to the country above Sierra-ville over the weekend. Had a lovely vacation but brought back no bucks, didn't even see any.

Members of the Tahoe-Sierra American Association of University Women are again asking local residents to aid in their very worthy project of supplying scholarships to deserving children of the Tahoe-Truckee school district by attending the showing of Lost Horizon, the picture made famous by Ronald Colman some time ago. If unable to attend, good will may be shown by purchasing tickets from the following: Village Store, Tahoe City; Rose Bros. Market, Truckee; Stop 'N Shop, Kings Beach, or by calling Mrs. William Randall, Brockway 8J2; Mrs. Clarence Beavers, Tahoe City 360, or Mrs. Tom Borneman, Truckee 344, or

are having rather hard luck this year, the deer having taken up their residences away from the regular hunting grounds or else being just downright scared of the whiskers some of the hunters are wearing and keeping out of sight (we mean the deer are keeping out of sight.)

The winter season activities of the North Tahoe Low XII Club started Tuesday night with a dinner for the Masonic members and their wives at Sierra Lodge.

Also becoming active after a summer vacation is the Woman's Club of North Tahoe which is holding its first meeting on Thursday night, Sept. 28, in the Lake Tahoe Gun Club's clubhouse at Tahoe Vista. Membership to the club is only a dollar a year, so come on, gals, pay your dues and enjoy the spaghetti dinner which will be served Thursday night. Hoping to see you at the dinner and glad to have been able to help out a neighbor by sending in these notes, I am, with best wishes to all, Helen Stokes.

by asking any member of the AAUW. Last year's winners of scholarships were Lois Horsley of Truckee and Robert Dockham of Tahoe City. This will be the AAUW's second annual campaign for funds and this organization is the only one awarding scholarships exclusively to local children. There will be two shows at the Brockway Theatre on Tuesday, October 10, the first at 7 p.m. Any contribution toward the scholarship fund will be sincerely appreciated by the AAUW.

Had three interesting notes last week, one from Miss Margaret Gall of Glendale, the young lady bicyclist who took up riding for her health and has since developed it into a hobby. She wrote she had just returned from a most delightful tour, via bike, of the Rocky Mountain states. She is busy now arranging her notes from which she hopes to write a book of her experiences.

The second was from one of the Sun's most faithful readers, Mrs. D. M. Brodehl, now living in Lodi. She wrote that their grandson, Dick Brodehl, 17, on September 17 went out alone in the Markleeville district and shot his first buck, a four pointer that dressed out at 175 pounds. Both he and his family are justly proud of his first kill. By this writing, the Brodehls new dining room will have been completed and they are all moved in.

My third letter was from our old friends, the Eric Druhn of San Francisco, and contained sad news which will be of interest to old time Tahoeites. Captain Geo. Mawdsley, former local resident, one of the last to pilot the beloved little steamer Tahoe on the lake, is in the Marine Hospital in San Francisco where he has been confined for more than a month. He is in critical condition following what was believed to be a stroke. Eric's father and mother, who were brought over from Germany by the Druhn to make their home in America, are again living with them following a stroke suffered by his dad. The Druhn's are still operating the lunch counter at the Ice Follies in San Francisco.

Friends and neighbors of the Archie Pattons of the Tahoma District will be saddened to learn of the death of Mrs. Patton on September 14 at their home in LaMesa, California.

Talked today with Mrs. Mike Korich who, with her family, is leaving this afternoon to join her husband, Commissary Steward General Mike Korich, now stationed with the Navy at the submarine base at Guadalcanal Village, Vallejo. Mike's lot to date has not been too bad as he is off every night and works two days and is then off two days. He is stationed with the ship's

company at the submarine barracks and can spend much of his time with his family.

A thick shower of pine needles is falling as the wind sings its autumnal song and skies still hang dark and cloudy. This is my favorite time of the year and only hope an early rain or snow doesn't ruin the gorgeous colors which make Lake Tahoe a fairy-

land beyond compare for the next few weeks. Good luck, good health and happy landings to you all. As ever, Swanee.

IS THERE A
HEAT THIEF IN
YOUR ATTIC?

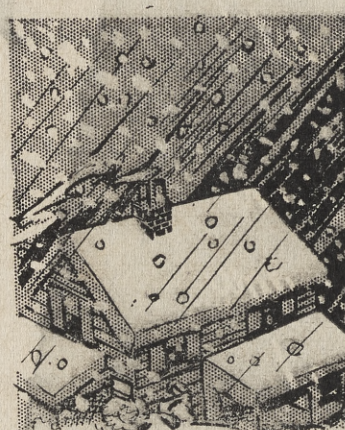

THESE LAST FEW CHILLY EVENINGS have been a warning. Winter is on the way! If you ever plan to put a stop to the marauding of that heat thief in your attic, now is the time to act. We can completely insulate any part of your house and definitely put an end to excessive loss of heat. There's no sense in running up an expensive fuel bill melting snow on your roof. And that's exactly what you are doing unless your attic is insulated. Call us immediately for estimates and advice.

CAN YOU REALLY
RELAX?

AS THE NIGHTS TURN COLDER and the approach of winter becomes more and more apparent, are you just a little bit uneasy about the condition of your buildings and equipment? Perhaps it's just a leak in the garage or a broken siding. But whatever it is, now is the time to put it in top-notch order for the winter months. Delay may result in extensive and costly repair work. Call us today for a complete selection of quality lumber items.

IT'S TOO LATE FOR
REPAIRS WHEN THE
SNOW is on THE ROOF

IF LAST WINTER KEPT YOU SCURRYING for pots and pans everytime there was a thaw, now is the time to see that this doesn't happen again. Melting snow can seep in where rain cannot. You can protect the interior of your home only if you act now! We'll be glad to furnish you with estimates on complete or partial roofing jobs, and recommend the best roofing for your home. But remember, we can't help you when there's snow on the roof. Call us at once.

WHY YOU SHOULD
PAINT IN THE FALL

THERE ARE A NUMBER OF GOOD REASONS why early fall is the best time to paint. Wood, masonry, stucco and other structural forms are drier in the fall than in the spring. And there is less deterioration to newly painted surfaces in the winter. Also, painting in the fall gives added protection to surfaces when most needed. The absence of strong sunlight during the winter gives the paint a chance to harden thoroughly without cracking. See us for the best in painting supplies.
